

DUNCAN
AVIATION

To Hawker Beechcraft:

As a Hawker operator, I feel the best way to get the highest quality Hawker service and support at the best value is by having choices. Over the past several years, Hawker Beechcraft has been limiting the Hawker operator's choices by reducing the number of Authorized Service Facilities. Now again this year, the available facilities has become smaller yet.

I rely upon qualified aircraft maintenance service facilities, like Duncan Aviation, to partner with me in the operation of my Hawker aircraft. I feel limiting my choices on where I am able to obtain warranty work, is limiting my ability to operate my aircraft to meet my needs.

I respectfully request that Duncan Aviation be retained as an Authorized Hawker Service Center
